LED SIGNS

FEATURED PRODUCT

LED OPEN SIGN WITH DIGITAL BUSINESS HOURS

Are you open? Centurion's new LED "Open Sign with Business Hours" enables you to answer the question as fast as your customer approaches your store. The "Open" portion of the sign is so bright and clear at a distance that customers can see it from the street. If your store is closed, your customer can drive right up to your front door and see your hours in the lower section of the sign without ever getting out of his or her vehicle. The LED display is visible 24 hours a day. As an added plus, the LED lights are energy efficient. The "Open" portion of the sign offers a number of display options - static, scroll and flash. The business hours portion of the display is simple to set or adjust as necessary. (Minutes increase in 30 minute increments.) The "Open Sign with Business Hours" package includes the sign (23.4" x 30.4"), power supply, ceiling and wall-mounting hardware, installation and operational instructions and warranty card. The sign is designed for indoor installation only and carries a three-year warranty.

BRIGHTEN UP YOUR BUSINESS & INCREASE YOUR SALES NOW WITH SPELLBRITE

SPELLBRITE® "CLICK TOGETHER" LED SIGNAGE SYSTEM

Retailers now can take full advantage of the power of ultra-bright LED signs to grab customer attention 24 hours a day even in direct sunlight.

The SpellBrite® LED signage system from Centurion is a perfect alternative to neon or fixed-dot LED signs. The system includes 44 letters, numbers and special characters that enable any retailer to create the exact message he or she wants in as little as a few minutes. The system's individual "click together" characters make it easy to change the message just as fast.

The signs are ultra-bright but they are energy efficient. A sign message of 22 letters uses less energy than a 40-watt incandescent light bulb. The LEDs have a long service life with a rating of 80,000 hours. The signs also feature many animation and dimmer options. The signs use power supplies that plug into standard electrical outlets and even battery packs that make the sign mobile.

Sign characters are durable. All are made of high-impact acrylic and ABS plastic. And, the signs are just the right size to be displayed and moved anywhere from store front interior windows to interior walls, countertops or even suspended with chains.

With SpellBrite® "click together" LED signs from Centurion there is no better time to put a bright light on your business.

COROPLAST MARKER BOARDS & RIDERS

Our Coroplast signs have the ability to reach a large audience with minimal cost. Available as blank signs, our corrugated plastic signs are ideal for repeated outdoor use. They can be moved easily and left out in rain or sunlight without being damaged. Both sides of the Coroplast can be used for capturing attention. They require NM-1SET/NM-2SET wet erase markers to withstand the elements. Wet erase marker copy is easily removed with glass cleaner. Coroplast signs can also be custom printed with your store's logo, etc. Our new Sale Rider Sign can be seated at the top of the 1220 Sign Holder. The hinges will "grab" the Sign Rider and hold in position.

Preferred Series bin labels utilize paper stock and offer an economical solution for most applications.

Select Series bin labels feature curl resistant latex fiber-impregnated stock incorporating moisture and abrasion resistant properties resulting in a longer lasting, more easily removable label.

Premium Series bin labels feature rugged poly material that is weather resistant and suitable for outdoor applications. They are also tear resistant, making removal easier.

Ultimate Series bin labels feature brilliant and durable, non-tearing weather and UV resistant vinyl stock for an enhanced visual appearance and improved usability. Our most durable label, it stands up to harsh environments both indoors and outdoors.
