

SuperScrape Floor Mat Design Guidelines

FREE Artwork Design

There are just a few things we need to know before we design your SuperScrape Floor Mat.

Choose a Background Color

Choose a primary background color [the product's color palette](#). **Light background colors should be avoided due to their tendency to show dirt.**

Upload Your Logo

Upload a vector PDF file or high resolution image file (TIFF, JPG or PNG) of your logo and tell us if you need it changed to a different color.

Vector files are ideal since they can be scaled to the correct size without losing image quality. If you don't have a vector file of your logo, please upload the best quality file that you have. Our graphic design team will determine if the file is usable or if we need to recreate it.

Your Message

Add your Tag line or message, also tell us the font name, style and color you would like the text in. If you have a layout in mind, please describe how you would like to see it.

Pre-Designed Artwork Option

Already created your custom design? Upload it and we will send a final proof for approval. A high-resolution PDF works best, however high-resolution TIFF, JPG or PNG will also work. *White is prone to discolor and cannot be used as the background or any part of the imprint area.* [This product's color palette](#) offers three light colors to use in place of White: F5, N9 and N10. The background color of the imprint area should NOT be set to these light colors.

Refer to Sizing Chart for Exact Impint Area Dimensions
